**ADDITIONAL INFORMATION SUPPORTING NJD** (e.g., paragraph 1 site conditions; paragraphs 2-3 rationale used to determine NJD, including information reviewed to assess potential navigation or interstate commerce connections; and paragraph 4 site information on waters of the U.S. occurring onsite):

The five small delineated wetlands (Nos. 1 through 5), located in the northern portion of the site, and the four small undelineated wetlands, located in the southwest portion of the site, are intrastate, not adjacent to or tributary to a water of the United States, and have no interstate commerce nexus. Rice Lake and its adjacent wetlands are tributary to the St. Croix River, a navigable water of the United States.
